## IECEX HAZARDOUS AREA APPROVED PLATFORM SCALE

The **PL3000** platform is designed around a Leg that is directly attached to the load cell. This is the most common system found in the weighing industry and the most economical.

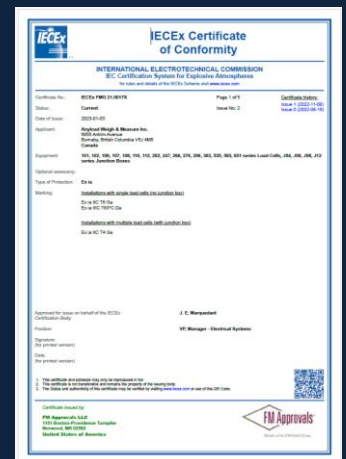

Associated Scale Service has designed these platforms to ensure rigidity of the top plate to assist in even loading of the weighing system.

PL3000

Utilizing the ANYLOAD Load Cells and Junction Box we are able to supply platform scales into hazardous areas.

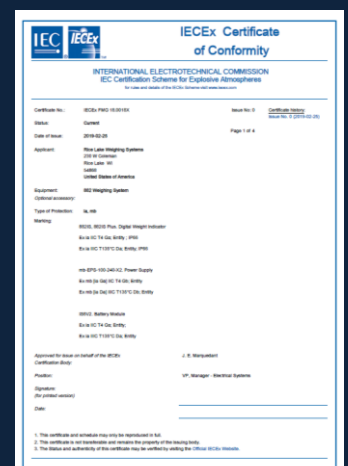

Please contact our sales department for all the certificates and options

Couple this with the Rice lake and Dini Argeo electronics we have the complete package

**ASSOCIATED SCALES**
